Max capacity for children is 44 which includes provision for Preschool. However, Preschool area being safeguarded should there be a demand. Capacity for Years R-6 is 36 and we are at capacity.

Note – each Risk Assessment has been amended using track changes, so that there is a documented history of all changes made.

Assuming the guidance changes with regards to 2m social distancing for schools, we would potentially be able to accommodate more pupils in existing bubbles, but no additional bubbles. However, it is unlikely that we could accommodate more children as we are not able to put in place the mitigations to allow 1m social distancing to be as safe as 2m social distancing e.g. face masks for all staff and children, Perspex screens, etc.

Introduction

Schools should continue operating as childcare facilities up until the 1st June 2020 for critical workers and vulnerable children. Following government instructions to reopen schools, we will do all we can to make them as safe as possible for our communities. This period of time needs to be used for leaders to carry out a complete assessment of their capacity and ability to open on June 1st to a wider group of pupils. It is this information that the DEMAT CEO and Trustees will use to make a final decision as to whether to open and/or which year groups to open with.

Each DEMAT school is required to complete the following Risk Assessment and each school's circumstances will be considered individually and signed off by DEMAT Trustees. Headteachers are required to use the Risk Assessment to ensure that all building, sites and health and safety risks are considered and addressed before the school can be opened. The responsibility and liability of school openings lies with the DEMAT CEO and Trustees, and the Trust's priority is to ensure that schools are safe to our children and staff, first and foremost. If the level of risk is too high, schools will not be allowed to open. The Trust's principles for all DEMAT schools are Safety first, followed by Sustainable practices, Prioritised curriculum and Raising standards.

Please refer to Page 36 of the DEMAT guidance document for details of the COVID-19 Governance Risk Assessment Accountability Framework.

Risk Assessment Monitoring and Review Requirements

Headteachers will be required to complete this Risk Assessment in full using the Government Guidance and DEMAT Guidance to support the controls and any actions required. Please pay specific attention to the assessment and completion of the severity and likelihood of the risks, as this data will be used by the Trustees in assessing the level of overall risk and decide whether or not each school can open (Refer to 'DEMAT Risk/Priority Indicator Key' at the end of the Risk Assessment). Headteachers will be required to review this Risk Assessment every two weeks and submit a return on a weekly basis to demonstrate the risk assessment is being followed, kept up to date and is compliant. The process for this monitoring and review will be issued tomorrow. This Risk Assessment covers all DEMAT schools including all school run pre-schools and nurseries. Where this applies please consider the Risk Assessment principles where applicable.

The DEMAT Risk Assessment is divided into five sections, as follows:

- [1. Establishing a process of partial opening, including social distancing](#)
- [2. Health & safety practice, policy and equipment](#)
- [3. Maximising social distancing in schools](#)
- [4. Operations](#)
- [5. Mental Health](#)

DEMAT Guidance is

- Supplementary Guidance & Support Issued 13 May
- Supplementary Guidance Update Issued 18 May but updated by guidance issued on 20 May detailed below
- Supplementary Guidance & Support updated and issued 20 May

The basis on which this Risk Assessment has been completed is as follows and will be reviewed every two weeks by the Trust

- Minimise the number of staff and pupils on site as far as possible whilst adhering to Govt Guidance, prioritising provision offer based upon 2-week review
 - N, R, 1, 6 if not possible then
 - N, R, 1 if not possible then
 - N, R
 - If not possible then speak to Trust
- No member of staff can go from one bubble to another therefore each bubble will require at least two members of staff. Unless going outside, bubbles stay in their allocated room. Bubbles do not change rooms and a room must not be used for e.g. one bubble on a Tuesday and a different bubble on a Thursday.
- As individual year groups return to school, provision for learning at home will not be required. If children from those year groups are not attending school, they may be directed to the government –supported provision of Oak National Academy. However, it is important that any resources to which children are directed are checked and clear guidance is provided.
- For those learning at home, the setting of online work and resources (or alternative measures in some schools) will continue.
- Schools will be closed for 1 day during the week to enable schools to carry out a deep clean and support further planning BUT will remain open for key worker and vulnerable pupils.
